Keep the product away from excessive heat sources, direct sunlight, humidity, water and any other liquid.

Do not operate the product with wet hands.

Do not operate the product if it has been exposed to water, moisture or any other liquid, to prevent against electric shock, explosion and/or injury to yourself and damage to the product.

Do not use the product for anything other than its intended use.

Do not use any accessories other than those supplied. This product is not suitable for use with a dimmer switch.

This product is intended for domestic use only. It should not be used for commercial purposes.

Note: Before replacing or handling the product, turn off the power and let the bulb cool completely to avoid electric shock or burns.

UP Global Sourcing UK Ltd. hereby declares that this product is in compliance with the essential requirements and other provisions of directive 2014/53/EU.

The declaration of conformity may be consulted at UP Global Sourcing UK Ltd., Victoria Street, Manchester OL9 0DD. UK. or www.intempo.co.uk/declaration-letters.html

Care and Maintenance

Wipe the product with a soft, lint-free cloth.

Do not:

Use any abrasive cleaning solvents to clean the product.

Expose the product to extremely high or low temperatures.

Drop the product.

Attempt to disassemble the product.

Dispose of the product in a fire as it will result in an explosion.

Instructions for Use

Downloading the App

Search a device's app store for the 'Intempo Home' app.

Download and install.

Note: The 'Intempo Home' app requires iOS 9.0 or Android 5.0 or higher to operate correctly.

Connecting the Smart Light Bulb with a Device

STEP 1: Open the Intempo Home app on an iOS 9.0 or Android 5.0 device.

STEP 2: Register a new account or log in with existing account details.

STEP 3: Select 'ADD DEVICE' and select 'LIGHTING DEVICES'.

STEP 4: Screw the light bulb into a compatible lighting fixture. The LED indicator light will flash quickly to indicate the device is ready to pair.

STEP 5: Select 'CONFIRM' on the 'Intempo Home' app.

STEP 6: Select the home Wi-Fi network from the list and enter the password. Select 'NEXT'.

STEP 7: Please wait while the light bulb syncs with the app. Once three green dots are displayed at the bottom of the screen, the light bulb is now fully connected and ready to use.

Note: The light bulb will only work with 2.4 GHz frequency Wi-Fi – make sure to connect to a compatible network.

If the LED indicator light does not flash once the light bulb has been fitted, switch the light on and off approx. 3 times until the LED indicator light flashes quickly.

The light bulb may heat up during use, handle it very carefully and make sure to switch off the light bulb and allow it to cool to prevent burns.

Troubleshooting

The light bulb has no power.

The light fixture has no power. Check that there are no issues with the home mains power supply. The light bulb is incompatible with the mains power supply. Check the mains power supply output matches the light bulb rating label.

The light bulb is not connected.

Wi-Fi is not compatible with the device.

The light bulb is only compatible with a Wi-Fi frequency of 2.4 GHz.

Home Wi-Fi is not on. Check that the home Wi-Fi hub is powered on and reboot if necessary.

The Wi-Fi password is incorrect/has changed. Check the correct Wi-Fi password has been entered in the 'Intempo Home' app. If the password has changed, follow the 'Connecting the Smart Light Bulb with a Device' section to reconnect the light bulb with the 'Intempo Home' app.

Issues with the 'Intempo Home' app.

For any issues with the 'Intempo Home' app, check the in-app help centre for troubleshooting or contact information.

Specifications

Product Code: EE5013

Socket: B22

Input: AC 220–240 V ~ 50/60 Hz

Watt: 8.5 W

Lumens: 806 Lm ($\pm 10\%$)

Operating Frequency: Wi-Fi 2.4 GHz

Software: Compatible with iOS 9.0 and above or Android 5.0 and above

Manufactured by
UP Global Sourcing UK Ltd.,
Victoria Street,
Manchester OL9 0DD. UK.

Made in China.
